2 Structure of the Group

The structure of the Quest Holdings group is presented as follows:

3 Summary of significant accounting policies

3.1 Preparation framework of the financial information

This interim financial information covers the three-month period ended March 31st, 2018 and has been prepared in accordance with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”.

The accounting policies used in the preparation and presentation of this interim financial information are the same as the accounting policies that were used by the Company and the Group for the preparation of the annual financial statements for the year ended December 31st, 2017.

The interim financial information must be considered in conjunction with the annual financial statements for the year ended December 31st, 2017, which are available on the Group’s web site at the address www.quest.gr.

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, and financial assets and liabilities at fair value through profit or loss.

The preparation of the financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Management to exercise its judgement in the process of applying the Group’s accounting policies. Moreover, it requires the use of estimates and judgments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of preparation of the financial information and the reported income and expense amounts during the reporting

period. Although these estimates and judgments are based on the best possible knowledge of the Management with respect to the current conditions and activities, the actual results can eventually differ from these estimates.

Differences between amounts presented in the financial statements and corresponding amounts in the notes results from rounding differences.

The group and the Company fulfill their needs for working capital through cash flows generated, including bank lending.

Current economic conditions continue to limit the demand for the Group's and Company's products, as well as their liquidity for the foreseeable future.

The Group and the Company, taking into account possible changes in their business performance, create a reasonable expectation that the Company and the Group have adequate resources to seamlessly continue their business operations in the near future.

Therefore, the Group and the Company continue to adopt the "principle of business continuity of their activities" during the preparation of the separate and consolidated financial statements for the period from January 1st, to March 31st, 2018.

3.3 New standards, amendments to standards and interpretations:

Certain new standards, amendments to standards and interpretations have been issued that are mandatory for periods beginning during the current financial year and subsequent years. The Group's evaluation of the effect of these new standards, amendments to standards and interpretations is as follows:

Standards and Interpretations effective for the current financial year

New standards, amendments to standards and interpretations: Certain new standards, amendments to standards and interpretations have been issued that are mandatory for periods beginning during the current financial year and subsequent years. The Group's evaluation of the effect of these new standards, amendments to standards and interpretations is as follows:

Standards and Interpretations effective for the current financial year

IFRS 9 "Financial Instruments" and subsequent amendments to IFRS 9 and IFRS 7 (effective for annual periods beginning on or after 1 January 2018)

IFRS 9 replaces the guidance in IAS 39 which deals with the classification and measurement of financial assets and financial liabilities and it also includes an expected credit losses model that replaces the incurred loss impairment model that was applied under IAS 39. IFRS 9 establishes a more principles-based approach to hedge accounting and addresses inconsistencies and weaknesses in the previous model in IAS 39. The effect from applying the standard to the Group is described in note 3a – Changes in accounting policies.

IFRS 15 "Revenue from Contracts with Customers"

IFRS 15 has been issued in May 2014. The objective of the standard is to provide a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within industries, across industries, and across capital markets. It contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognised. The underlying principle is that an entity recognises revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. The effect from applying the standard to the Group is described in note 3a – Changes in accounting policies.

IFRS 4 (Amendments) "Applying IFRS 9 Financial instruments with IFRS 4 Insurance contracts"

The amendments introduce two approaches. The amended standard: a) gives all companies that issue insurance contracts the option to recognise in other comprehensive income, rather than profit or loss, the volatility that could arise when IFRS 9 is applied before the new insurance contracts standard is issued; and b) gives companies, whose activities are predominantly connected with insurance, an optional temporary exemption from applying IFRS 9 until 2021. The entities that have elected to defer the application of IFRS 9 continue to apply the existing financial instruments standard—IAS 39.

IFRS 2 (Amendments) “Classification and measurement of Share-based Payment transactions”

The amendment clarifies the measurement basis for cash-settled, share-based payments and the accounting for modifications that change an award from cash-settled to equity-settled. It also introduces an exception to the principles in IFRS 2 that will require an award to be treated as if it was wholly equity-settled, where an employer is obliged to withhold an amount for the employee's tax obligation associated with a share-based payment and pay that amount to the tax authority.

IAS 40 (Amendments) “Transfers of Investment Property”

The amendments clarified that to transfer to, or from, investment properties there must be a change in use. To conclude if a property has changed use there should be an assessment of whether the property meets the definition and the change must be supported by evidence.

IFRIC 22 “Foreign currency transactions and advance consideration”

The interpretation provides guidance on how to determine the date of the transaction when applying the standard on foreign currency transactions, IAS 21. The interpretation applies where an entity either pays or receives consideration in advance for foreign currency-denominated contracts.

Annual Improvements to IFRS 2014 (2014 – 2016 Cycle)

IAS 28 “Investments in associates and Joint ventures”

The amendments clarified that when venture capital organisations, mutual funds, unit trusts and similar entities use the election to measure their investments in associates or joint ventures at fair value through profit or loss (FVTPL), this election should be made separately for each associate or joint venture at initial recognition.

Standards and Interpretations effective for subsequent periods

IFRS 9 (Amendments) “Prepayment Features with Negative Compensation” (effective for annual periods beginning on or after 1 January 2019)

The amendments allow companies to measure particular prepayable financial assets with so-called negative compensation at amortized cost or at fair value through other comprehensive income if a specified condition is met—instead of at fair value through profit or loss.

IFRS 16 “Leases” (effective for annual periods beginning on or after 1 January 2019)

IFRS 16 has been issued in January 2016 and supersedes IAS 17. The objective of the standard is to ensure the lessees and lessors provide relevant information in a manner that faithfully represents those transactions. IFRS 16 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. The effect of this standard will be calculated by the Group and the Company.

IFRS 17 “Insurance contracts” (effective for annual periods beginning on or after 1 January 2021)

IFRS 17 has been issued in May 2017 and supersedes IFRS 4. IFRS 17 establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the Standard and its objective is to ensure that an entity provides relevant information that faithfully represents those contracts. The new standard solves the comparison problems created by IFRS 4 by requiring all insurance contracts to be accounted for in a consistent manner. Insurance obligations will be accounted for using current values instead of historical cost. The standard has not yet been endorsed by the EU.

IAS 28 (Amendments) “Long term interests in associates and joint ventures” (effective for annual periods beginning on or after 1 January 2019)

The amendments clarify that companies account for long-term interests in an associate or joint venture—to which the equity method is not applied—using IFRS 9. The amendments have not yet been endorsed by the EU.

IFRIC 23 “Uncertainty over income tax treatments” (effective for annual periods beginning on or after 1 January 2019)

The interpretation explains how to recognise and measure deferred and current income tax assets and liabilities where there is uncertainty over a tax treatment. IFRIC 23 applies to all aspects of income tax accounting where there is such uncertainty, including taxable profit or loss, the tax bases of assets and liabilities, tax losses and credits and tax rates. The interpretation has not yet been endorsed by the EU.

IAS 19 (Amendments) “Plan amendment, curtailment or settlement” (effective for annual periods beginning on or after 1 January 2019)

The amendments specify how companies determine pension expenses when changes to a defined benefit pension plan occur. The amendments have not yet been endorsed by the EU.

Annual Improvements to IFRS (2015 – 2017 Cycle) (effective for annual periods beginning on or after 1 January 2019)

The amendments set out below include changes to four IFRSs. The amendments have not yet been endorsed by the EU.

IFRS 3 “Business combinations”

The amendments clarify that a company remeasures its previously held interest in a joint operation when it obtains control of the business.

IFRS 11 “Joint arrangements”

The amendments clarify that a company does not remeasure its previously held interest in a joint operation when it obtains joint control of the business.

IAS 12 “Income taxes”

The amendments clarify that a company accounts for all income tax consequences of dividend payments in the same way.

IAS 23 “Borrowing costs”

The amendments clarify that a company treats as part of general borrowings any borrowing originally made to develop an asset when the asset is ready for its intended use or sale.

3a Changes in accounting policies

The Group applies, for the first time, IFRS 15 “Revenue from Contracts with Customers” and IFRS 9 “Financial Instruments”. The Group adopted these new standards using the cumulative effect method (i.e. modified retrospective approach), with the effect of initially applying these standards to be recognized at the date of initial application (i.e. 1 January 2018). Accordingly, the information presented for 2017 has not been restated – i.e. it is presented, as previously reported, under IAS 18, IAS 11, IAS 39 and related interpretations. As required by IAS 34, the nature and effect of these changes are disclosed below.

IFRS 15 “Revenue from Contracts with Customers”

IFRS 15 supersedes IAS 11 “Construction Contracts”, IAS 18 “Revenue” and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers:

1. Identify the contract(s) with a customer.
2. Identify the performance obligations in the contract.
3. Determine the transaction price.
4. Allocate the transaction price to the performance obligations in the contract.
5. Recognize revenue when (or as) the entity satisfies a performance obligation.

The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. It also contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. Under IFRS 15, revenue is recognized when a customer obtains control of the goods or services, determining the timing of the transfer of control – at a point in time or over time. The Group applies the standard for the year 2018 and in respect of prior periods, has recognized the cumulative effect of applying IFRS 15 to all

contracts that had not yet been completed at January 1, 2018, as an adjustment to the opening balance of equity on January 1, 2018 (the modified retrospective approach). Contracts completed before the date of initial application (i.e. January 1, 2018) have not been revised. There was no impact from the implementation of the above standard in financial statements of Company and Group.

IFRS 9 “Financial Instruments”

IFRS 9 replaces the guidance of IAS 39 which deals with the classification and measurement of financial assets and financial liabilities and it also includes an expected credit losses model that replaces the incurred loss impairment model. IFRS 9 also establishes a new more principles-based approach to hedge accounting and addresses inconsistencies and weaknesses in the model in IAS 39.

The new provisions on the accounting of impairment losses lead to expected losses having to be expensed earlier in some cases.

Classification and measurement of financial assets and financial liabilities IFRS 9 largely retains the requirements of IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets of held to maturity, loans and receivables and available-for sale. The adoption of IFRS 9 has no effect on the Group’s accounting policies related to financial liabilities. The impact of IFRS 9 on the classification and measurement of financial assets is set out below.

Except for the trade receivables that are initially measured at the transaction price, the Group primarily measures a financial asset at fair value plus transaction costs except for financial assets at fair value through profit or loss. Under IFRS 9, financial instruments are subsequently measured at fair value through profit or loss (FVPL), amortized cost, or fair value through other comprehensive income (FVOCI). The classification is based on two criteria: 1. the business model within which the financial asset is held, i.e. whether the objective is to hold it in order to collect contractual cash flows or to collect contractual cash flows as well as sell financial assets and 2. Whether the instruments’ contractual cash flows represent “solely payments of principal and interest” on the principal amount outstanding (the ‘SPPI criterion’). The new classification and measurement of the Group’s financial assets are, as follows: 3. financial assets at amortized cost. The category includes financial assets that are held within the business model with the objective to hold financial assets and collect contractual cash flows that meet the SPPI criterion. This category includes all financial assets of the Group, except for the investments in mutual funds which are measured at fair value through profit or loss (FVPL). 4. Financial assets at fair value through profit or loss (FVPL). The category includes investments in mutual funds. Investments in mutual funds do not meet the IFRS 9 criteria for classification at amortized cost, because their cash flows do not represent solely payments of principal and interest. Under IAS 39, the Group’s investments in mutual funds were classified as available-for-sale (AFS) financial assets. Upon transition to IFRS 9, the Group’s investments to mutual funds have been reclassified from AFS to fair value through profit or loss (FVPL) and the accumulated amount which had been previously recognized under other comprehensive income was reclassified to retained earnings.

The following table summarizes the impact of the above reclassification at January 1, 2018:

	GROUP		COMPANY	
	31/12/2017	1/1/2018	31/12/2017	1/1/2018

4 Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical data, forecasts and expectations of future events that are deemed reasonable under the circumstances

5 Critical accounting estimates and assumptions

The Company and the Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Estimates and assumptions involving significant risk adjustment to the carrying value of assets and liabilities within the next financial year are addressed below.

Estimates and assumptions are continually reassessed and are based on historical experience as adjusted for current market conditions and other factors, including expectations of future events which are considered reasonable under the circumstances.

(a) Income tax

Judgement is required by the Group in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

(b) Estimated trade receivables impairment

The Company examines the overdue balances of customers and whether exceeding the credit policies. The Company makes impairments of doubtful balances and creates corresponding provisions based on estimations. Estimates are made taking into consideration the timing and amount of repayment of receivables and any collateral of claims received. In particular, when there are guarantees, the Company creates provisions for doubtful debts, with percentage less than 100% of the claim. These statements involve significant degree of subjectivity and require the judgment of management.

(c) Estimation of investments and non-financial assets impairment

The Company examine annually and whether the shareholdings and non-financial assets have suffered any impairment in accordance with accounting practices. The recoverable amounts of cash generating units have been determined based on value in use. These calculations require the use of estimates.

(d) Retirement obligations

The present value of retirement obligations depends on a number of factors that are determined using actuarial methods and assumptions. Such actuarial assumption is the discount rate used to calculate the cost of delivery. Changes in these assumptions will change the present value of the obligations in the balance sheet.

The Group and the Company determine the appropriate discount rate at the end of each year. This is defined as the rate that should be used to determine the present value of future cash flows, which are expected to be required to meet the obligations of the pension plans. Low risk corporate bonds are used to determine the appropriate discount rate, which are converted to the currency in which the benefits will be paid, and whose expiry date is approaching that of the related pension obligation.

(e) Provisions for pending legal cases

The Company has pending legal cases. Management evaluates the outcome of the cases and, if there is a potential negative outcome then the Company makes the necessary provisions. The provisions, when they are required are calculated based on the present value of management's estimation of the expenditure required to settle the obligation at the balance sheet date. This value is based on a number of factors which require the exercise of judgment.

6 Segment information

Primary reporting format – business segments

The Group is organised into five business segments:

- (1) Information Technology
- (2) Information Technology services
- (3) Courier services
- (4) Production of electric power from renewable sources

(5) Financial transactions

Management monitors the financial results of each business segment separately. These business segments are managed independently. The management making business decisions is responsible for allocating resources and assessing performance of the business areas.

In Unallocated mainly included the Company's activity.

The segment results for the period ended 31st of March 2018 and 31st of March 2017 are analysed as follows:

Current period: Of the aforementioned fixed assets of the Group, the fixed assets owned by lease amount to 24.358 thousand Euros with an accumulated depreciation of 11.431 thousand Euros.

Previous year: Additions of tangible assets (Machinery) to the Group amounting to 13.750 thousand Euros (12.751 thousand Euros in 2016) mainly involve the provision of POS terminals to its subsidiary Cardlink SA, mentioned both in the closed and the previous financial year. Of the aforementioned fixed assets of the Group, the fixed assets owned by lease amount to 24.358 thousand Euros with an accumulated depreciation of 10.213 thousand Euros. To acquire the aforementioned assets, the Group has received grants, the net book value of which amounts to 286 thousand Euros. There are no unfulfilled covenants or contingent liabilities.

The liens and encumbrances on the assets of the Company and the Group are disclosed under Note 18.

According to the IFRS 13 (Fair Value Measurement), the Company's Management believes that the carrying value of the Group's asset "Land and buildings" approximates their fair value and that there are no indications yielded for extra impairments within the present Financial Report. These assumptions will be reviewed in the annual financial statements of 2018.

8 Goodwill

The Goodwill of the Group are analyzed as follows:

	GROUP	
	31/3/2018	31/12/2017
At the beginning of the year	27.225	25.537
Additions	-	1.689
At the end	27.224	27.225

(Amounts presented in thousand Euro except otherwise stated)

The amount of € 25.537 thousand of goodwill contains € 4.932 thousand for the acquisition of «Rainbow S.A.», which has been absorbed in 2010 by the 100% subsidiary "iSquare SA", € 3.785 thousand from the acquisition of minority interests of the subsidiary "ACS SA", € 16.820 thousand value of the goodwill of the acquired company under trade name "Cardilink SA" and the amount of € 1.689 thousand of goodwill for the acquisition of two subsidiaries (Note 29 – Business combinations). The calculation of the above goodwill and the financial exposure of the Group is presented in the present Financial Reporting note under number 29 – "Business acquisitions".

In previous year, the key assumptions used for value-in-use calculations are consistent with the external information sources. For the "Apple products distribution" segment, these are: discount rate: 11,55%, sales growth rate: 4%, EBITDA margin: 3%, growth rate in perpetuity: 1%. Concerning the segment of courier services, the key assumptions are: discount rate: 11,85%, sales growth rate: 6,5%, EBITDA margin: 12%, growth rate in perpetuity: 1%. Relating to the segment of financial services: discount rate: 14,63%, sales growth rate: 0%, EBITDA margin: 41%, growth rate in perpetuity: 1%.

Budgeted gross margin is based on last year's performance increased by the expected growth rate of return.

The amount of € 5.884 thousand relates to the brand name: "Unisystems", with initial value amounted to € 15.600 thousand, which has been acquired in 2007 with useful life of 30 years. The valuation for the mentioned value is made according to Discounted Cash Flow (DCF) at the end of the previous year. The key assumptions used by the Management to calculate future cash flows are as follows: interest rate has been used to calculate the present value: 11,52%, sales increase: 8,5%, EBITDA margin: 3,5% and growth rate in perpetuity:1%.

10 Investment properties

The change of investment properties of the Group is as follows:

	GROUP	
	31/3/2018	31/12/2017
Balance at the beginning of the year	8.230	8.230
Balance at the end of the year	8.230	8.230

Balance at the end of the year	(5.397)	(5.395)
Net book value at the end of the year	2.833	2.835

The amount of € 2.833 thousand concerns the value of the subsidiary's, "UNISYSTEMS S.A.", land, in Athens, which had been acquired in 2006 with initial plan the construction of offices. The Group, taking into account the qualified valuer report and the circumstances in real estate market proceeded in partial deletion of € 2.000 thousand (adjustment to fair value) of the value of the above investment. In 2007 the management decided not to construct the mentioned offices. Thus, this land is owned for long term

investment other than short term disposal, based on the requirements of I.F.R.S. 40 «Investment Properties» and thus has been transferred from Property, plant and equipment to Investment Properties.

The depreciation of € 2 thousand relates to small-scale installations associated with the above land. According to IFRS 13 (Fair Value Measurement), the Company's Management believes that the value of the investments in property approaches their fair value so there are not important indications for possible impairment in this Financial Report. Revaluation will be made by the Company at the end of the year 2018.

11 Investments in subsidiaries

The movement of investment in subsidiaries is as follows:

	COMPANY	
	31/3/2018	31/12/2017

Capital decrease of subsidiaries	-	(12.595)
Balance at the end of the year	67.276	67.276

Previous year:

The amount of € 4.999 thousand refers to the share capital increase of the subsidiary «Quest Energy S.A. »

The amount of € 2.400 thousand related to acquisition of 45% of Subsidiary «Quest Energy S.A. ».

The amount of € (4.539) thousand refers to the share capital decrease of Unisystems S.A. in kind (BriQ Properties REIC shares) and the amount of € (12.595) thousand related to share capital decrease of Quest Energy S.A. (€ 10.461 thousand), € 1.131 thousand share capital decrease of subsidiary «Unisystems S.A.» and (€ 1.003 thousand) share capital decrease of subsidiary «Info Quest Technologies S.A.».

The amount of euro 12.706 thousand in the account of long-term tax assets to the Company and the Group relates to a tax advance tax of 5% on the sale price (€330.000 thousand) of the subsidiary "Q Telecommunication" in 2006.

The Company, for the above fact and under the current legislation has formed special taxed reserve of € 203.556 thousand in retained earnings, which in case of its distribution, or a proportion of it, it will deduct at the percentage of 5% of that which had already been advanced.

Specifically, in 2006 (as detailed in the respective annual financial report) the company (formerly Info-Quest S.A.) decided to spin off the telecommunications branch and sale it for € 330.000 thousand and profit before taxes € 241.232 thousand. Based on L.2238 / ar.13, 5% tax withheld on the sale price, which stands at the recoverable amount of € 12.706 thousand.

28 Non-current assets held for sale and discontinued operations – Previous year

The Board of Directors of "Quest Holdings Societe Anonyme" and its subsidiary "UniSystems Information Systems SA" decided to establish a Real Estate Investment Company (REIC) according to the provisions of Law 2778/1999 and the submission of an application to the Hellenic Capital Market Commission to obtain a license for the operation of a REIC according to par. 4 of Article 21 of Law 2778/1999.

According to its meeting no. 757/31.5.2016, the Board of Directors of the Capital Market Commission decided to issue a license for the operation of a subsidiary company under the name "BriQ Properties Real Estate Investment Company", as: (a) a Real Estate Investment Company according to the provisions of Law 2778/1999 and (b) an Alternative Investments Organization with its own management, in accordance with the provisions of Law 4209/2013.

On October 7th 2016, the agreement on the incorporation of the (former, up to its listing on ATHEX) subsidiary "BriQ Properties REIC" was signed, according to the decision of the Company's Annual General Meeting of June 1st, 2016 and the decision of the Annual General Meeting of the subsidiary "Unisystems SA" dated June 9th, 2016.

The Company and its subsidiary "Unisystems SA" contributed to the (former, up to its listing on ATHEX) subsidiary "BriQ Properties REIC" real estate property and cash of a total value of €27.777.167,23, which constituted its initial share capital, in accordance with the aforementioned decisions of the Annual General Meetings and decision no. 3/757/31.5.2016 of the Board of Directors of the Hellenic Capital Market Commission, which approved the license of operation of "BriQ Properties REIC" as a Real Estate Investment Company SA, in accordance with the provisions of Law 2778/1999 and as an Alternative Investments Organization with its own management, in accordance with the provisions of point (b) paragraph 1 of Article 5 of Law 4209/2013.

In accordance with the above, reclassified assets, value in use, as well as their valuations at fair value, as shown in the valuation reports of chartered assessors as team assets, are presented below:

As mentioned above, the incorporation of REIC and the contribution of said property were completed in 2016. As a result, the property that was initially classified as "Non-current Assets Held for Sale" from the category of "Tangible Assets" was contributed to the established (former, up to its listing on ATHEX) subsidiary "BriQ Properties REIC".

Following the above, the entire participation of the Company in the (former, up to its listing on ATHEX) subsidiary "BriQ Properties REIC" was classified under the category "Assets Held for Sale". In addition, all the assets and liabilities of the aforementioned (former, up to its listing on the ATHEX) subsidiary are presented under the same category in the Group's financial statements.

Below, there is a summary of the evolution of the assets held for sale from the reclassification of Tangible and intangible assets up to the incorporation of the (former, up to its listing on ATHEX) subsidiary "BriQ Properties REIC":
